MARS GAMING

MC3 CASE

New Mars Gaming MC3 is a high performance gaming case designed for professionals. It supports high-end graphics cards, up to 380 mm, to achieve extreme performance during the game.

Its ventilation system is extremely powerful including a watercooling support, a complete air guiding system and the chance of installing up to 34 fans. MC3 already includes one red-LED 120 mm front fan.

The MC3 supports up to 160 mm high CPU coolers, has a complete cable guiding system and includes an upgraded 90 degrees rotated HD cage, for an easier installation.

The best features that can be expected in a gaming case combined in the new MC3.
